Advantages

A key affiliate in the California operations is PrimeCare Medical Network, Inc. (PMNI). PMNI has a limited California Knox-Keene license for Riverside, San Bernardino and San Diego counties.

This lets PMNI accept both institutional and professional risk to enhance the coordinated care model. PMNI currently accepts global capitation for most of its senior plans and one of its commercial plans.

As a Knox-Keene licensee, the Department of Managed Health Care subjects PMNI to strict regulations. This helps ensure that the company remains financially stable and complies with operational standards.

A FRESH APPROACH
TO HEALTH CARE

Modern Technology with Professional services

Our Team

“ Everyone deserves fair access to quality food, nutritional education, and adequate health care. ”
– Donna Maltz

Our leaders share decades of health care experience. The combined education and experience of our leadership team positions them well to help navigate the evolving health care industry.

About us

ALA Health, California, develops and manages provider networks. We offer a full range of services to help physicians and other providers in their managed care and business operations.

For 25 years, we have been an innovator in health care. We have a track record for quality service and electronic capabilities, as well as financial stability.

We are well positioned to continually invest in our infrastructure and systems. This benefits our clients and helps us prepare for changes related to health care reform.

- Professional Doctors & Nurses
- Good People and Inspiring
- Large Network for Easy Access

Our Services

Business Model

We can adapt quickly and change the business model to suit your needs. We want to align the interests of all providers to work toward the same goals.

Network integrity

We are committed to supporting a successful client and coordinated care model. We do this by always making sure that our model offers value-added services.

Credentialing

The credentialing department ensures all contracted providers are qualified and appropriately credentialed. We work with our contracted Credentialing Verification Organizations (CVO)

Government Relations

In an increasingly competitive and regulated health care environment, we know how important it is to stay informed. That's why we proactively anticipate new local, state or federal directives.
